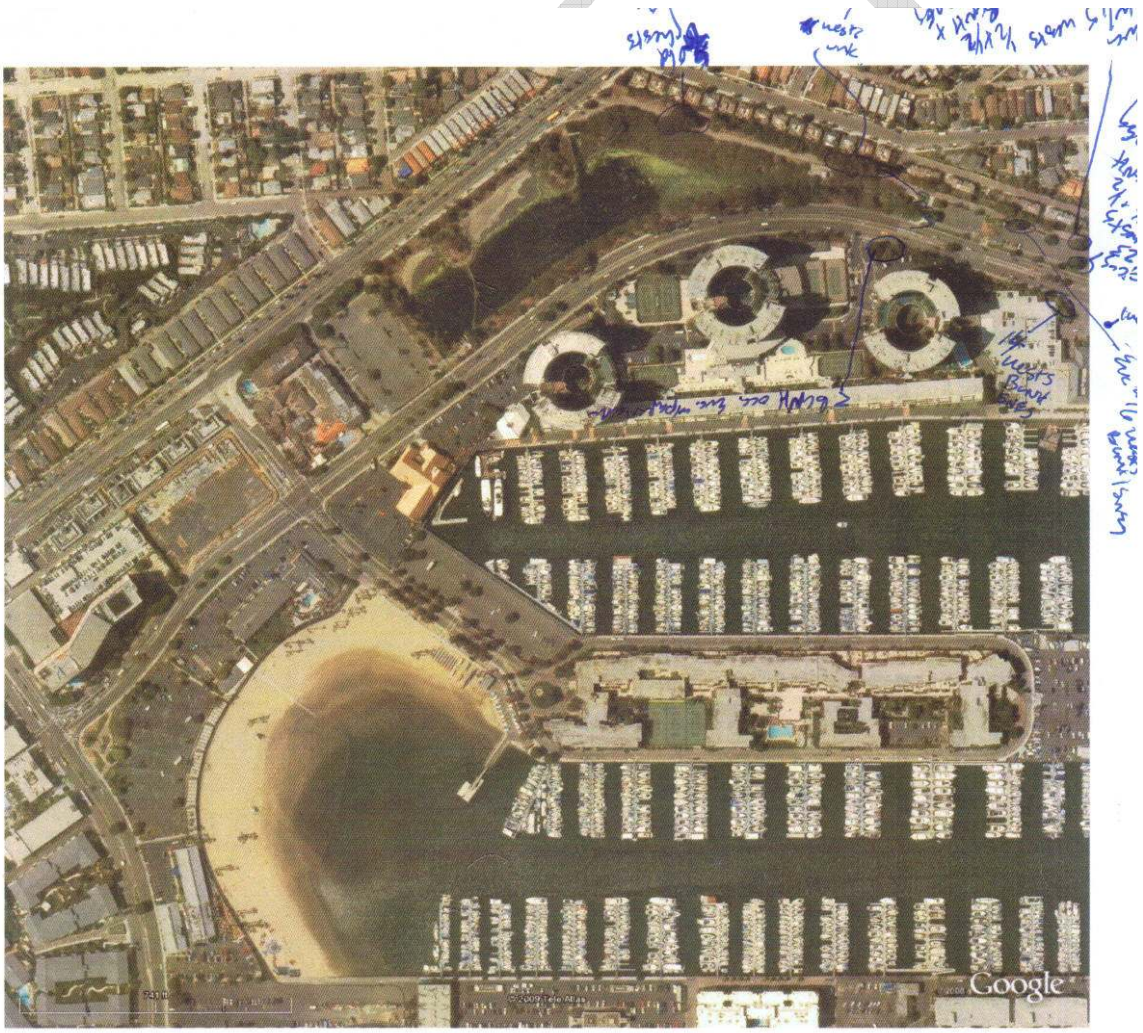
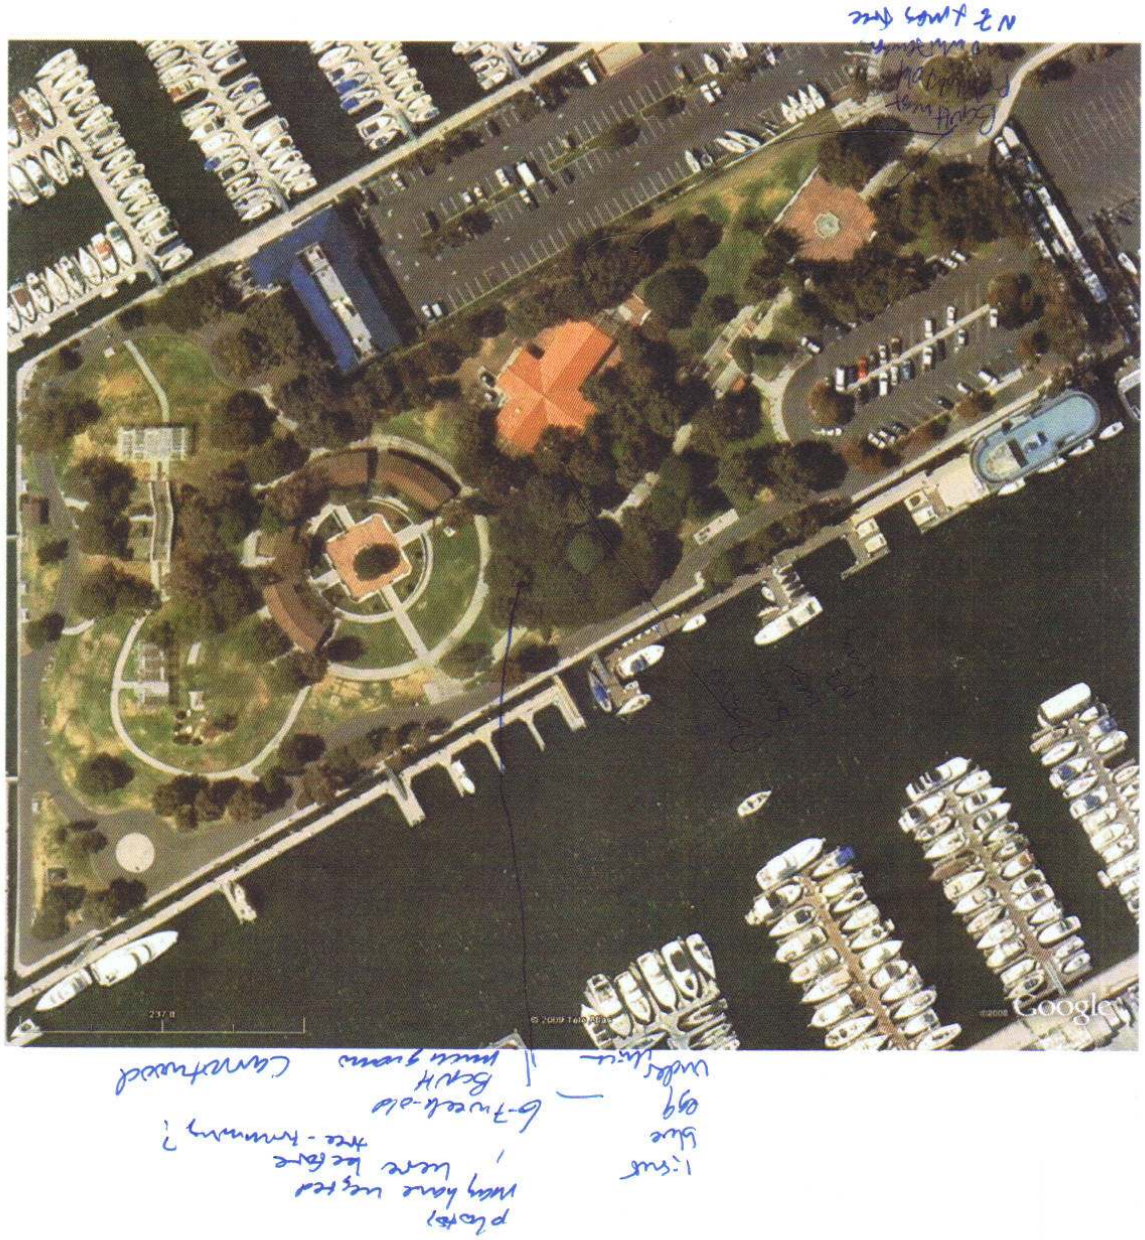
APPENDIX B: COPIES OF FIELD NOTES

This appendix consists of scans of the 2009 field notes taken by Robert A. Hamilton (RAH) and Daniel S. Cooper (DSC) in order to prepare this Conservation and Management Plan. In most cases, RAH's cryptic field notes were transcribed from a field notebook to a more legible notebook upon return to the office after completion of the field work. DSC also did this, but then the legible notebook was lost, so DSC's original field notes are provided here.

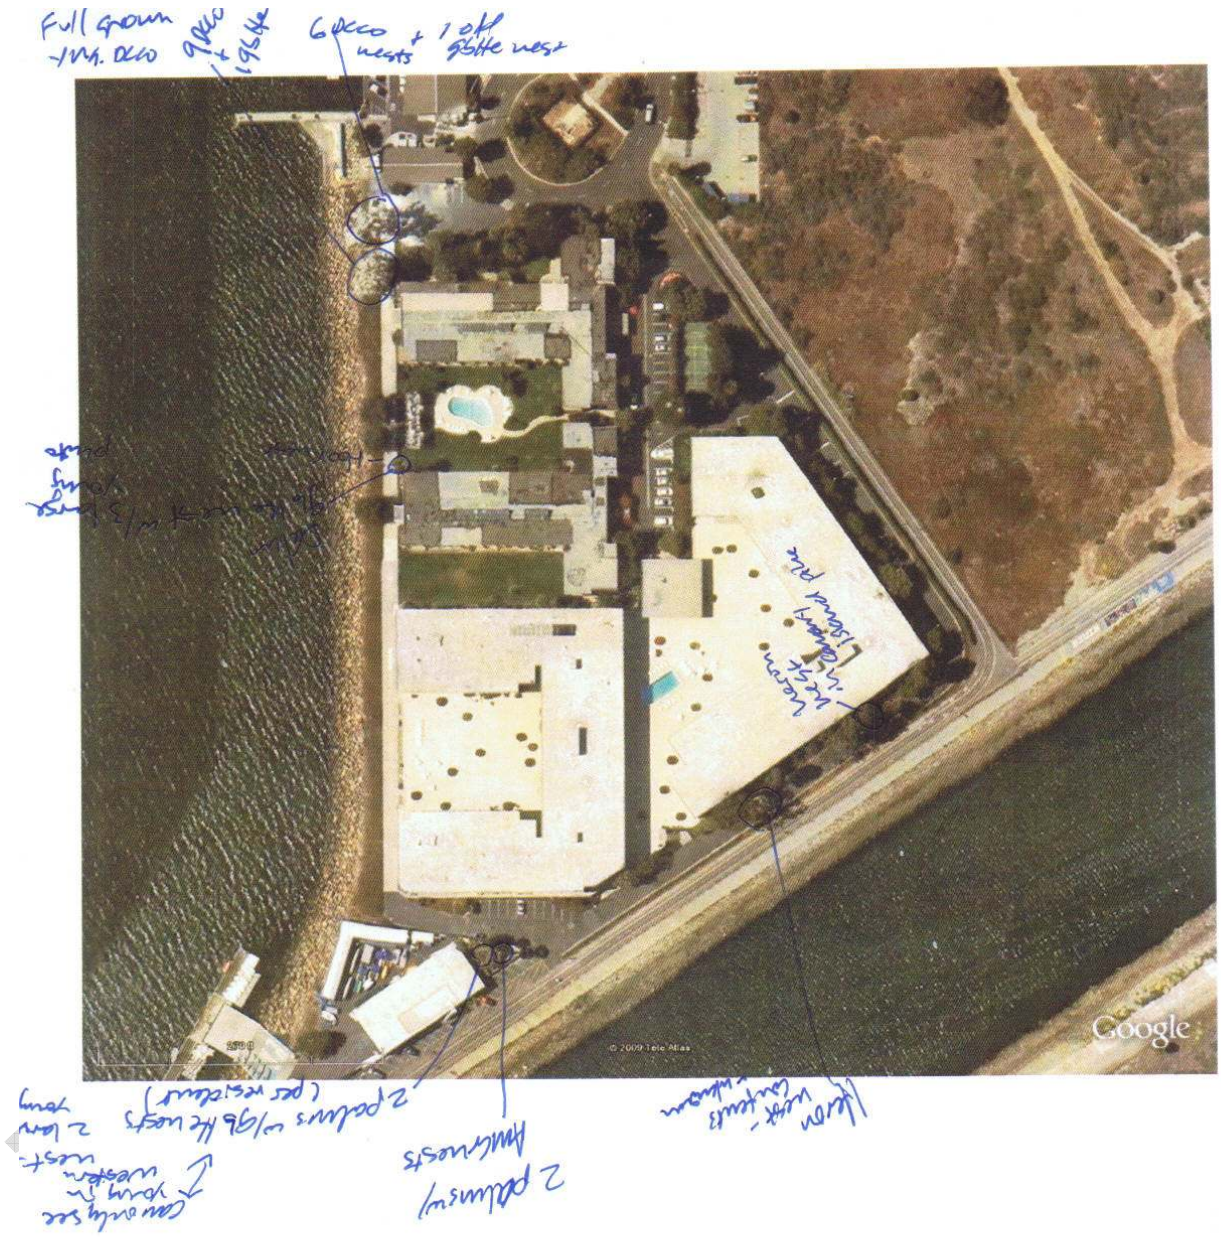
Notes of Robert A. Hamilton



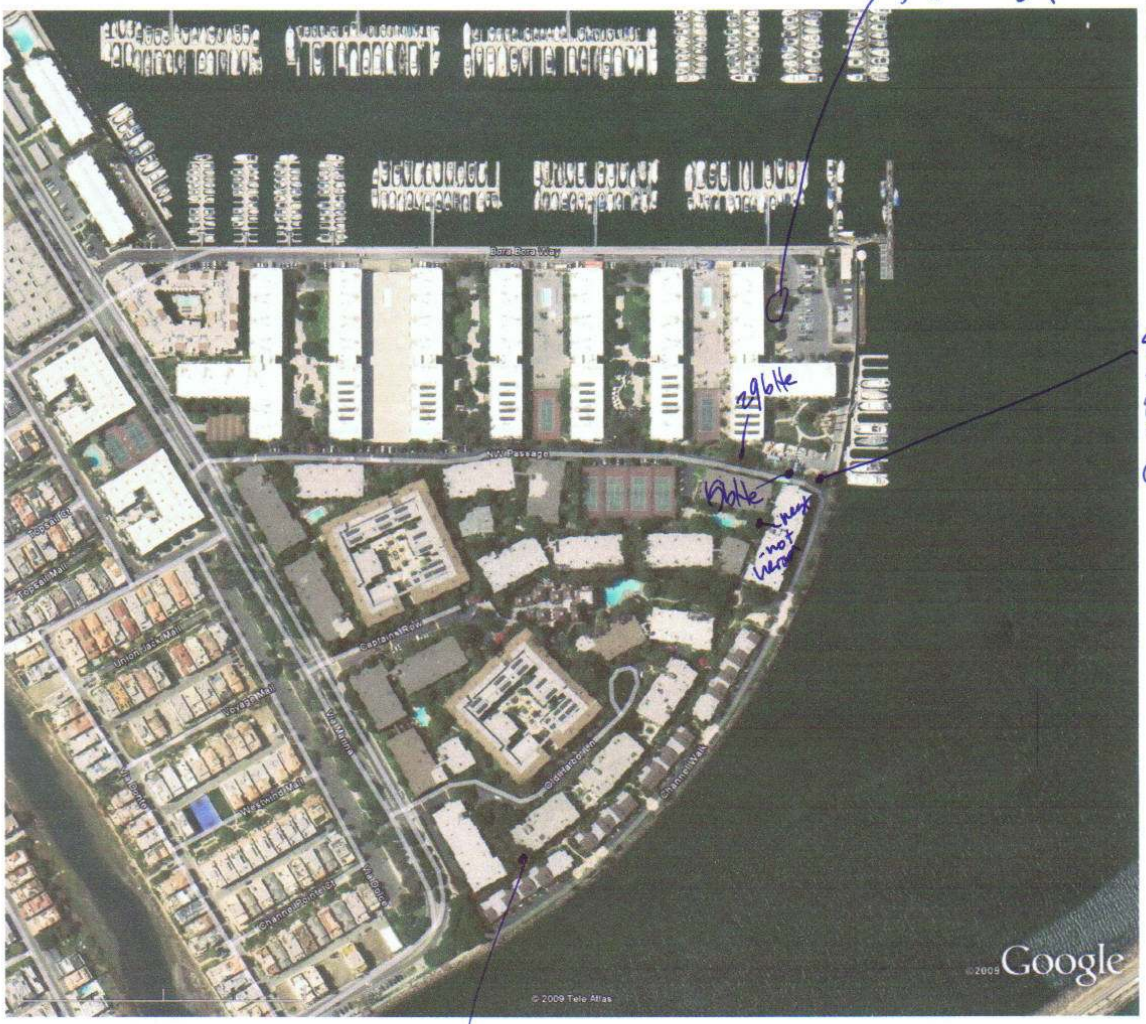
5/20/09 RAH
DSC



5/2009



5/20/09 Fox Squirrel

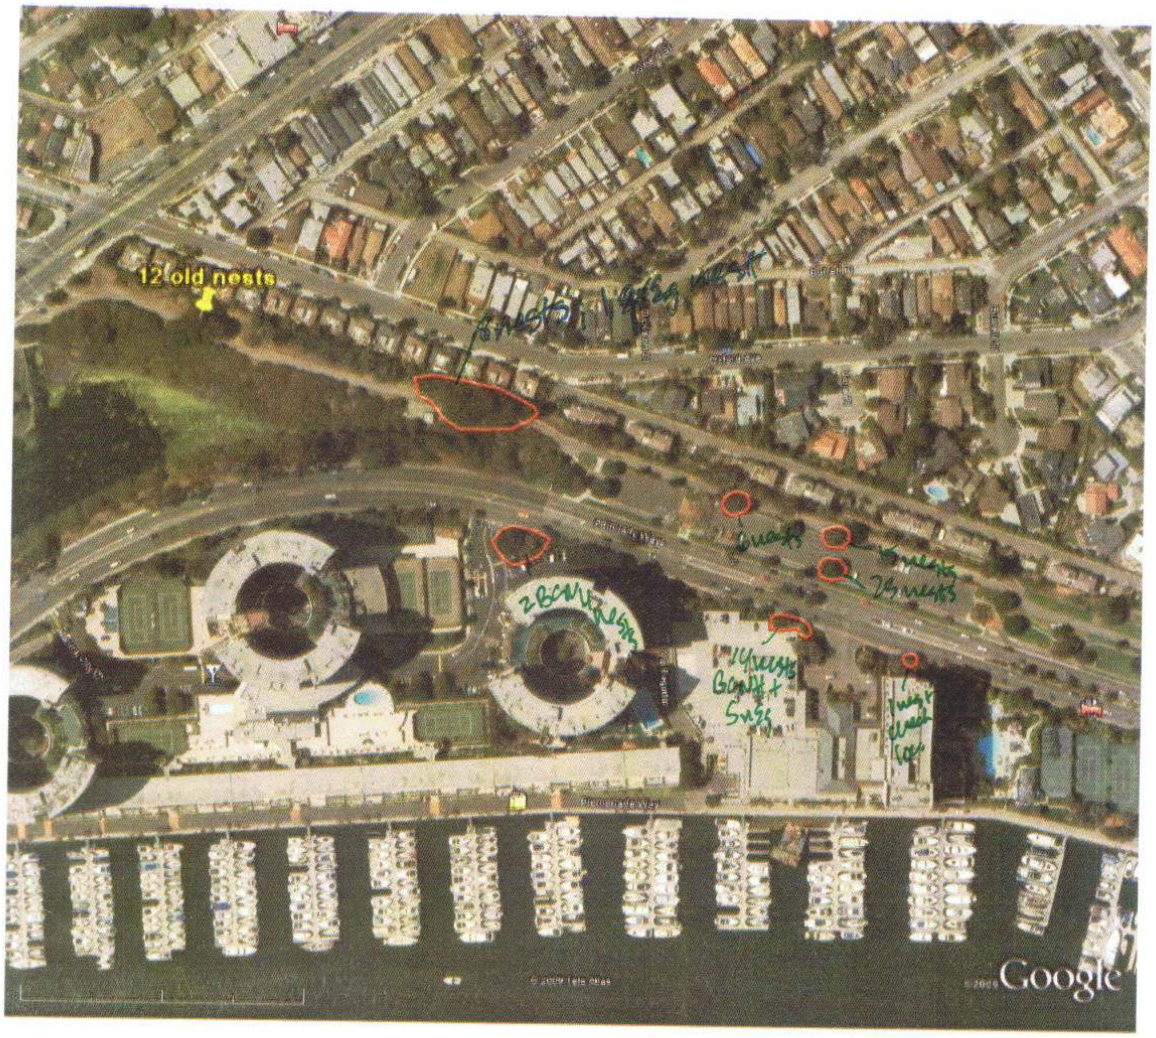


6/22/09
1400-1700
Sunny, breezy 68°F

Palawan Way - No Nests
Jamaica Bay Inn - No "
Via Marina. Del Rey Shores Apts " "
Tahiti Way - " "
Bora Bora Way - See notes
Mariners Village - 15 nests 40-50' up

Pines w/ 15 large nests 40-50' up
Probably all gbh

Via Dolce + Venice Canal - " "
Marquesas 9 BCNH nests along median @ east end.
Several BCNH adults in trees roosting. Coral trees @ end w/ guano.



6/23/09

6/23/09 1900–63°; wind 7mph; clear

Villa Venetia
DCCO nests mostly empty.
~19 large young out on branches of monterey cypresses

Admiralty
